"William J. Moner was my instructor at The Art Institute of Pittsburgh. I have taken a total of 4 classes with him, all of which were one of the best classes I've ever had. Part of Mr. Moner's teaching involves not just traditional lecturing, but provides more than what's in text books. He will ask questions to the class, have everyone participate, as well bring forth the latest trends in the web and advertising. It's always a good thing to have a smart, intellectual professor, but having one who is willing to share all of his knowledge is something that one cannot forget. Even more, Mr. Moner's willingness to truly help students learn and succeed makes him not just a great instructor, but also a great friend. I truly recommend him, and know that anyone who works with him will value his character and personality together for his passion for his profession."
